

IDIMT 2013

(www.idimt.org)

CALL FOR PAPERS

University of Economics, Prague (Czech Republic)
and
J. Kepler University of Linz (Austria)

have the pleasure to invite you to submit papers to the 21st

Interdisciplinary Information Management Talks

*held in Prague, Czech Republic
September 11th - 13th, 2013 (Wed-Fri)*

In 20 years of its history IDIMT conference have established itself as a truly interdisciplinary and international forum for the exchange of concepts and visions in the area of complex and/or software intensive systems, management and engineering of information and knowledge, systemic thinking, business engineering, and related topics. The increasing pervasiveness of systems and the related importance of information as a vital resource requires the consideration of synergies in an interdisciplinary and holistic cooperation of various disciplines such as systems engineering, electronics, management, information systems, sociology, business, and education.

IDIMT involves a multi-national, multidisciplinary audience in discussing up-to-date and evolving topics and issues.

The conference follows the well-established pattern of a single stream of sessions, each introduced by a keynote and followed by shorter position papers, their full text being included in the proceedings. At least 20 minutes are set aside at each session for a plenary discussion.

Draft versions of keynote papers will be available on the conference web site (www.idimt.org) by the end of March 2013 to enable participants to formulate their position papers. Submitted draft papers are reviewed by at least two independent reviewers. Final acceptance is subject to fulfilling the reviewer's suggestions and demands

The proceedings of the Conference will be published in the Series "Informatik" of the "Universitätsverlag Rudolf Trauner, Linz, Austria" with an ISBN-number. They will be available at the start of the conference.
